# Lifelong Learning Opportunities

# Explore your path to *lifelong learning* ▶▶

## *Lifelong Learning Opportunities* ▶▶

In today's changing industry, you need to keep your mind sharp and your knowledge current. Continuing Education is the key to achieving your personal and professional goals. Our flexible schedule and diverse learning opportunities are designed to fit your fast-paced lifestyle, with skills that you can apply to life. Our recognized programs are taken by students, professionals, and community organizations across Canada and around the world. Programs include:

- ▶▶ *online certificate programs*
- ▶▶ *professional development*
- ▶▶ *skills training to keep you sharp*
- ▶▶ *general interest programs for leisure*
- ▶▶ *customized training to help your business grow*

## *Customized Training Solutions* ▶▶

CDE can create customized training programs to meet your organization's needs. Our successful programs, developed and delivered in partnership with other organizations, include:

- Know and Grow for Garden Centres
- Millbrook Aquaculture and Horticulture Training Program
- Arboriculture with NB Power
- The Modern Shepherd for Sheep Producers
- Nova Scotia Tractor Safety Training

## *Certificate Programs*

offered online through web-based study ▶▶

### *Certificate of Specialization in Organic Agriculture*

This program offers practical, hands-on experience and specialized skills in organic agriculture. Courses will assist new and existing producers to develop a strong understanding of many aspects of organic agriculture. This certificate provides the foundation on which to build a successful future in a growing industry.

- Composting and Compost Use ENVS2002
- Principles of Organic Horticulture HORT2001
- Transition to Organic Agriculture AGRI2000
- Organic Field Crop Management AGRN2000
- Organic Livestock Production ANSC2004

*"I am extremely impressed with the willingness of NSAC's Continuing Education program for working with local industry to custom design a course with a very specific focus such as Techniques for Culturing Marine Microalgae... Thank you for a quality job, well done!"*

-Acadian Seaplants Ltd

*"The online course is practically perfect. It was really easy to navigate, and therefore made it easier to learn."*

-Bill Thoms  
Master Gardener Student

### *Master Gardener Training Program*

For the gardening enthusiast - or for those developing an interest in horticulture, landscaping or agriculture - a Master Gardener Certificate is a valuable way to build foundational skills.

- Plant Identification and Use
- Science of Gardening
- Maintaining the Garden
- Art of Gardening
- Summer School Levels 1 & 2 (July)
