Technology Diploma in Business Management

(Formerly Diploma in Enterprise Management)

Dairy Competency Form

All applicants of the **Diploma in Business Management (DBM) – Dairy Farming** program are required to demonstrate experience in the basic care and handling of dairy cattle. As students will not receive basic hands-on instruction in these areas through lecture and laboratory sessions, it is necessary for them to have experience prior to attending the Nova Scotia Agricultural College.

Mail form to: **Registrar's Office**, Nova Scotia Agricultural College, PO Box 550, Truro, NS, B2N 5E3

Name of Applicant: _____

Address of Applicant: _____

Phone Number: _____ Email: _____

Dairy Experience: Please describe your experience with dairy cattle. If you wish you may include an extra sheet and/or you may enclose copies of certificates you have received to support your application.

This section is to be completed by someone you know (not a relative) who can confirm your experience with dairy cattle.

The DBM – Dairy Farming program requires students to have a basic understanding of the basic care and handling of dairy cattle. Please have any employer, veterinarian, 4-H club leader, etc. comment on your experience in working with cattle.

Name of Reference (employer, veterinarian, etc): _____

Address of Reference: _____

Phone number: _____ Email: (optional) _____

Please comment on how long you have known the applicant and in what capacity with regards to his/her experience in the care and handling of dairy cattle.

Can we contact you if there are any further questions concerning the applicant? _____

Signature of supervisor: _____ Date: _____
