

REGISTRATION AMENDMENT

To make changes to your course load that you are otherwise unable to make using the WebAdvisor Course Registration system, please indicate the desired amendments on this form and submit the completed form to the Registry. Circumstances where this form may be needed include: registration for No Program students, timetable conflicts, permission to audit a course, and to approve an overload of courses. (e.g., 7 degree-level courses or 8 technical-level courses)

Timetable Conflicts

If this amendment is the result of a timetable conflict, it is the responsibility of the student to obtain the instructor's signature confirming that he/she is aware of the course conflict.

* Audit

A student may, with the permission of the instructor, audit a course. Terms and conditions of the audit will be set forth by the instructor at the outset. Students who do not fulfill the conditions may have their privileges revoked and will not have the audit recorded on their transcript. Audit students are subject to the same academic regulations and deadlines as students registered in a course for credit.
