

RULES FOR CONTROLLING PETS IN RESIDENCE

These rules were made so that we could keep pets in residence. If they are abused in any way, this privilege will be taken away from all of us!

- (1) Only caged animals will be allowed. The animal must have a cage and must be kept in the room of the owner at all times.
- (2) No large animals, nothing larger than a guinea pig is allowed. More specifically, no cats, dogs, rabbits (including *dwarf* rabbits), skunks, ferrets, snakes, spiders or any other animal that is not deemed suitable, at the discretion of House Council Animal Care Committee and Residence Don.
- (3) Because birds are notoriously noisy, no birds will be allowed in residence.
- (4) Removal of the animal at any time is at the discretion of the House Council Animal Care Committee and Residence Don.
- (5) No large cages or aquariums. Aquariums must be no larger than 2'x1'x1' and cages no larger than 2'x2'x1'.
- (6) The cage/aquarium must be kept clean. If there are complaints of smell or flies or any condition that is not healthy to the animal or the people living around it, the animal will have to be removed. It is the owner's responsibility to keep their animal clean and quiet. If they cannot handle this responsibility, they will not be allowed to keep a pet in residence. Owners are responsible for all costs related to removal/clean up and all infractions.
- (7) If the animal is noisy or is causing some sort of a problem, the animal will have to be removed.
- (8) Each case will be looked at fairly and separately from other cases. There must be a valid reason for an animal having to be removed.
- (9) Before an animal can stay in residence, House Council Animal Care Committee and Residence Don must know what the pet is, and what the cage is like, to see if it is appropriate. A form must be signed, so that some record of the pet can be kept. The form also is an agreement on the part of the owner to follow the rules.

Pet Type: _____

I hereby agree to follow the rules of pets in residence as above, and I understand that if any of these rules are broken, I am responsible for the immediate removal of the pet, at the discretion of House Council Care Committee and Residence Dons. I also understand I am responsible for all costs related to the pet including cleaning carpets, fumigation, etc.
